

Vietnam: Corporate Renewable Energy Update

Some Housekeeping Items

Two Options for Audio (select audio mode):

1. Listen through your computer.

Please select the "mic and speakers" radio button on the right hand audio pane display

2. Listen by telephone.

Please select the "telephone" option in the right-hand display, and a phone number and PIN will display.

3. Q&A:

Audience microphones will be muted. Please post any content questions you have using the "questions" pane. For webinar admin issues, post your questions in the "chat" pane.

Some Housekeeping Items (continued)

- Share with others or watch it again
 - A video/audio recording of this Webinar and the slide decks will be made available at: https://cleanenergysolutions.org/training
 - PDFs of the presentations can be accessed at https://cleanenergysolutions.org/training
- Recordings are also available on our YouTube channel
 - http://www.youtube.com/user/cleanenergypolicy

Disclaimer

The Clean Energy Solutions Center does not endorse or recommend specific products or services. Information provided in this webinar is featured in the Solutions Center's resource library as one of many best practice resources reviewed and selected by technical experts

Agenda

1

Welcome & Introductory Remarks

2

Overview of the Clean Energy Solutions Center

3

Presentations and Q&A: Policy Update

- ➤ Evan Scandling, Co-Lead SE Asia, CEIA
- ➤ Dr. Quynh Chi Trinh, Project Manager, CEIA

•

Presentation and Q&A: DPPA

➤ Gary Zieff,
Principal
Energy
Advisor, VLEEP

Clean Energy Ministerial

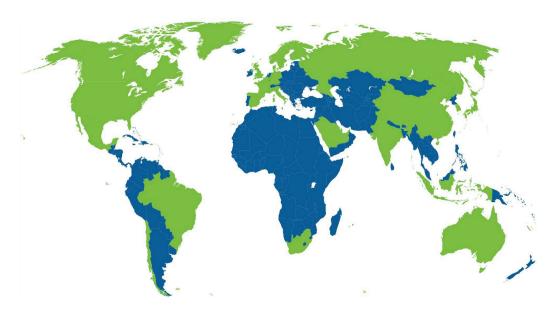

The Solutions Center:

 Launched under the Clean Energy Ministerial (CEM) in 2011

Clean Energy Ministerial:

 A high-level global forum to promote policies and programs that advance clean energy technology, to share lessons learned and best practices, and to encourage the transition to a global clean energy economy.

90%

of

Clean energy investment

75%

of

Global CO₂ emissions

Solutions Center: Background & Vision

- Multilateral initiative, of the Clean Energy Ministerial, is co-led by the Australian Department of the Environment and Energy, the Swedish Ministry of the Environment and Energy, and the U.S. Department of Energy.
- Additional funding support from Power Africa & the Hewlett Foundation
- The Solutions Center is a unique CEM initiative assisting countries in all regions of the world in strengthening clean energy policies and finance measures
- Supporting transition of clean energy markets and technologies

Solutions Center: Goals and Audience

Programs and Services

- Team of 60+ experts from around the globe responded to 450+ requests for policy support from more than 90 countries
 - Extensive support across Africa, Asia, and LAC
 - Launched support for finance measures in 2015
- Trained over 15,000 officials through more than 225 webinars and training events with others
- Strong & growing partnerships with development agencies and regional and global organizations in delivery of support
- Over 2500 resources in curated library for policy makers

Target
Audiences

- Primary
 - Government Policy Makers and Advisors
- Secondary
 - Private-Sector Companies
 - Energy Entrepreneurs and Investors
 - Non-Governmental Organizations
 - Civil Society
 - Others Engaged in Clean Energy

Solutions Center: Partnerships

More than 35 international partners:

- Climate Technology Center and Network (CTCN)
- ECOWAS Center for Renewable Energy and Energy Efficiency (ECREEE)
- Inter-American Development Bank (IDB)
- International Energy Agency (IEA)
- International Partnership for Energy Efficiency Cooperation (IPEEC)
- International Renewable Energy Agency (IRENA)
- Low Emission Development Strategies Global Partnership (LEDS-GP)
- Renewable Energy Policy Network for the 21st Century (REN21)
- Sustainable Energy for All (SEforALL)
- United Nations Environment Programme (UN Environment)
- USAID Power Africa (USAID PA)

Ask an Expert: Our Experts in Action

We connect you to a global network of energy experts for personalized attention and quick response technical assistance on **strategies**, **regulations**, **standards**, **financial incentives**, **and energy transition programs** for a broad range of clean energy sectors and technologies including:

- Energy Access
- Energy Efficiency
- Renewable Energy
- Smart Grid
- Transportation
- Utilities
- Carbon Capture Utilization & Storage

Evan Scandling, Co-Lead – SE Asia, CEIA

Evan has more than a decade of experience advising, developing and managing clean energy businesses, projects and programs around the world. Based in Southeast Asia since 2012, he has primarily focused on on- and off-grid decentralized solar PV in the Mekong Region.

In his current role with Allotrope Partners, Evan co-leads the Clean Energy Investment Accelerator program in Southeast Asia. He also contributes to Allotrope's other advisory work in the region, with an emphasis on commercial and industrial renewable energy strategy and implementation. Prior to joining Allotrope, Evan was the Myanmar country director of a regional solar project developer.

Dr. Quynh Chi Trinh, Project Manager, CEIA

Chi is an expert on renewable energy and power markets in Vietnam. Before joining the CEIA, she provided policy and regulatory advisory services to Vietnam's Ministry of Industry and Trade on Renewable Energy market development for the GIZ Energy Support Program-Vietnam.

Chi holds a PhD in Electrical Engineering from Katholieke Universiteit Leuven (Belgium), a MSc in Economics, Technology and Territory from Université Paris-Sud (France) and a MSc in Engineering and Policy Analysis from Delft University of Technology (the Netherlands).

Gary Zieff, Principal Energy Advisor, V-LEEP

Gary is an accomplished renewable energy expert with over 18 years' experience in emerging and established energy markets. He is currently based in Vietnam, where he leads private sector engagement to improve access to financing and development expertise for Vietnamese renewable energy developers.

Gary's prior experience includes project work in the Caribbean, East Africa, Eastern Europe and Southeast Asia. He has developed and implemented an investment strategy for a portfolio of 100 MW of third party owned commercial and industrial PV projects, led business development for an Engineering Procurement and Construction company and managed large portfolios of investor owned PV assets.
