# About the Practitioner Network

- Established in 2011, the Practitioner Network is an initiative of the United Nations Foundation that supports the development of a **thriving global distributed energy sector**.
- We do this by connecting our **2,500 members** – who are active in over 170 countries – to industry insights and resources, and by helping create powerful partnerships.
- As the largest network of its kind, the Energy Access Practitioner Network provides an unparalleled platform for understanding and addressing the challenges and opportunities faced by the distributed energy access sector.

# About this Webinar

- Examines how the “bottom of the pyramid” can tangibly benefit from the development, manufacture and marketing of highly efficient, off-grid-appropriate products.
- Features findings from two new research publications from the Efficiency for Access coalition – the [2018 Off-Grid Appliance Market Survey report](#) and the [Appliance Data Trends report](#).
- Please follow live Tweets via [@energyaccessPN](#) using [#PNwebinar!](#)

# Energy Access Practitioner Network

Building a Thriving Global Distributed  
Energy Access Sector
