Agenda

5

- ✓ Welcome and Introductory Remarks
- ✓ Overview of the [Clean Energy Solutions Center](#)
 - **Vickie Healey**: Project Leader, National Renewable Energy Laboratory
- ✓ Presentations - Panelists:
 - **Marc LaFrance**: Energy Analyst - Building Sector at International Energy Agency
 - **Didier Houssin**: Director of Sustainable Energy Policy and Technology at International Energy Agency
- ✓ Question & Answer
- ✓ Survey
- ✓ Discussion and Closing Remarks

Clean Energy Ministerial & UN Partnership Supporting the Solutions Center

6

- Clean Energy Ministerial (CEM) launched the Clean Energy Solutions Center in April, 2011 for major economy countries
 - One of eleven CEM Initiatives
 - Led by Australia and U.S. with other CEM partners
- Partnership with UN-Energy is extending scope to support all developing countries
 - Enhance resources on policies relating to energy access, small to medium enterprises (SMEs), and financing programs
 - Offer expert policy assistance to all countries
 - Expand peer to peer learning and training

Clean Energy Solutions Center

<http://www.CleanEnergySolutions.org>

7

Goals

- Serve as a first-stop clearinghouse of clean energy policy resources.
- Share policy best practices, data, and analysis tools across countries.
- Deliver dynamic services that will enable expert assistance, learning, and peer to peer sharing of experiences
- Foster dialogue on emerging policy issues and innovation across the globe.

Target Audiences

- Primary:
 - Energy policy makers and advisors
 - Analysts
- Secondary:
 - Private sector companies,
 - Energy entrepreneurs and investors
 - Non Governmental Organizations
 - Civil society
 - Others engaged in clean energy

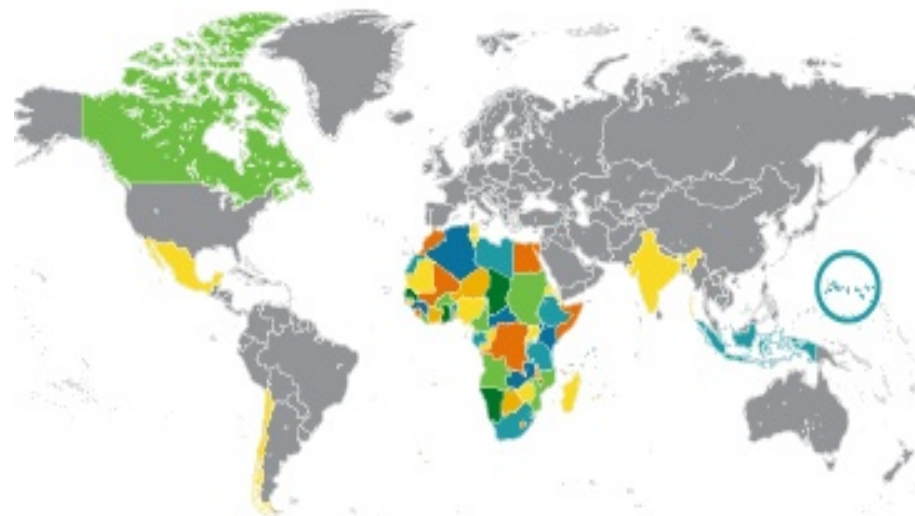

Ask an Expert: Our Experts in Action

8

We connect you to a global network of energy experts for personalized attention and quick response technical assistance on **strategies, regulations, standards, financial incentives, and deployment programs** for a broad range of clean energy sectors and technologies including:

- Energy Access
- Energy Efficiency
- Renewable Energy
- Smart Grid
- Transportation
- Utilities

How You Can Get Involved

9

- Request expert assistance or tailored technical resources for your country
- Participate in webinars, training activities, and policy networks
- Offer advice and suggest resources to share
- Register for our newsletter

Didier Houssin: Director of Sustainable Energy Policy and Technology at International Energy Agency

10

Didier Houssin became Director of Sustainable Energy Policy and Technology at the International Energy Agency on 1 December 2012. Previously, he served for five years as Director of Energy Markets and Security and head of the directorate's predecessor, the Office of Oil Markets and Emergency Preparedness. Before joining the International Energy Agency, Mr. Houssin, a French national, was Managing Director of BRGM, the French Geological Survey where, since 2004, he had extensive management responsibilities over the 850-strong group. Among other matters, he was involved at BRGM in carbon capture and sequestration and in geothermal energy. Prior to joining BRGM, Mr. Houssin was the former Director of Energy and Mineral Resources in the French Ministry of Economy between 1997 and 2004. In this capacity, he was the French delegate for numerous IEA activities, notably as Chairman of the Standing Group on Emergency Questions (SEQ) at the time of preparation of emergency action plans in 2003. From 1987 to 1990, he was seconded for three years to Total, where he dealt in particular with European energy matters. He also held several positions in the French Ministry of Industry dealing with financial and European affairs. Mr. Houssin graduated from the École nationale d'administration and has a Masters in International Law. He also has degrees in Philosophy from Université de Paris 1 – La Sorbonne and in Political Science from the Institut d'études politiques de Paris.

Marc LaFrance: Energy Analyst – Building Sector at International Energy Agency

11

Marc LaFrance Peter Larsen is project manager of the Danish Policy Toolkits and part of the Low Carbon Transition Unit under the Ministry of Climate, Energy and Buildings. Peter has 5 years experience in both national and international energy and climate policies and measures. Peter holds a Master's degree in political science.

Time for Q&A
