

Enfoque en México:

Promoviendo Programas
de Certificación:
Energy Star y LEED

29 de Noviembre de 2011

Dos Opciones para el Audio (seleccione el modo de audio)

1. *Puede escuchar por su computadora.*

Esto trabajará si puede escuchar música en su computadora.

2. *Puede escuchar por teléfono.*

Seleccione la opción "telephone" en el panel de la derecha de su pantalla una vez que se conecte al webinar, y un número telefónico y clave de ingreso aparecerán. Por favor asegúrese de que su teléfono esté mudo durante la presentación.

Algunas Indicaciones antes de empezar

3

Para hacer preguntas, seleccione el icono de preguntas en su pantalla.

Trataremos de contestar preguntas directamente.

Si tiene problemas durante la presentacion:

Podra acceder a un PDF de estas presentaciones en
http://cleanenergysolutions.org/online_training

Colgaremos una grabación de este Webinar que usted podra acceder en cualquier momento

Agenda

- Introduccion al Centro de Soluciones para la Energia Limpia
- Programas de Certificacion en Mexico
- Certificacion de aparatos electricos y Programas de Etiquetado
- Construyendo Programas de Certificacion: LEED
- Preguntas y Respuestas
- Cierre del Webinar

The Clean Energy Solutions Center helps governments turn clean energy visions into reality. We share policy best practices, data, and analysis tools across countries, and serve as a first-stop clearinghouse of [clean energy resources](#). We also offer policy assistance—[online training](#) and "live" [expert assistance](#)—to help countries tailor solutions to their needs and foster international collaboration on policy innovations.

The Clean Energy Solutions Center was designed and is supported by a unique partnership between the Clean Energy Ministerial and the United Nations inter-agency energy mechanism (UN-Energy).

[Learn More about the Clean Energy Solutions Center »](#)

International climate change and energy experts convene at the World Bank to discuss low-emission future..

 [Subscribe to Our Newsletter »](#)
Stay abreast of website developments and international clean energy activities with the Solution Center's monthly e-mail newsletter .

-  [Ask an Expert »](#)
Confer with clean energy specialists who are here to help.
-  [Get Training »](#)
Learn more about clean energy policy and deployment.

Recursos Tecnicos

6

Energy Topics

Energy Efficiency

- Appliance and Equipment
- Buildings
- Industry
- Utilities

Renewable Energy

- Biofuels
- Electricity
- Heating and Cooling

Clean Transportation

Crosscutting

- Low Carbon Communities
- Smart Grid

Energy Access

Small and Medium Enterprises

Clean Fossil Energy

Data, Resource Type

Best Practices

- Energy Efficiency
- Renewable Energy
- Clean Transportation
- Crosscutting and Infrastructure

Analysis Tools

- Opportunity Assessment and Screening
- Market Analysis
- System and Application Design
- Policy, Deployment and Program Impact

Potentials and Scenarios

Deployment Impacts

Deployment Data

Policy Data

Diseminacion de informacion mediante webinars y materiales para entrenamiento

- Webinars mensuales en temas de interes:
 - Setiembre: Buenas Practicas para el desarrollo de la Energia Industrial en India
 - Noviembre: Smart Grid Maturity Model
 - Noviembre: Promoviendo Programas de Certificacion en Mexico – Energy Star and LEED
 - Enero: Standards y Etiquetado 101
 - Diciembre: Leonardo Webinars en electrificacion rural, regulacoin del mercado electrico, y otros temas
- Materiales de entrenamiento (videos, presentaciones, curriculum, etc.) en colaboracion con Leonardo Energy, UN, IPEEC, IRENA, other CEM initiatives, others
- Blogs: Feed-In-Tariff, Programas de acceso energetico, RE en Africa, etc.

Training Videos by Leonardo Energy

Renewable Energy Tools

Solar Energy Assessment for Community Energy Planning

Learn to evaluate the potential energy production of solar technologies and how to make an educated decision about installing solar power.

Introduction to Small-Scale Wind Energy Systems

Learn about small-scale wind turbines, including as vertical- and horizontal-axis turbines. The video includes a tutorial for RETscreen's wind tool, which presents how to effectively navigate the wind module of RETscreen.

Collaboration

- **Diseminacion**
 - Newsletter
 - Webinar globales y webinars especificos a ciertos paises
 - Medios Sociales
- **Colaboradores:**
 - India's BEE, Mexico's CONUEE.
 - IRENA, IEA, IPEEC, REEEP, REN21, Bloomberg New Energy Finance, Climate Works, IIP, Otras CEM Iniciativas.

How You Can Get Involved

- Check out resources on:
www.CleanEnergySolutions.org
- Request expert assistance or tailored technical resources for your country
- Participate in webinars and training activities
- Offer advice and resources to share
- Sign up for the newsletter
- Post comments to the blog articles

Thank You – We Welcome Your Feedback

10

- How can we further strengthen the Solutions Center content and services?
- How can we enhance awareness and use of the Solutions Center?
- What policy-related topics are of greatest interest to you/your country?
- How can our policy experts be of assistance to you/your country?
- Other suggestions?
