

Energy Efficiency for Energy Access: Fighting Fuel Poverty in Developed Economies

18 May 2016

Disclaimer

- *The Clean Energy Solutions Center does not endorse or recommend specific products or services. Information provided in this webinar is featured in the Solutions Center's resource library as one of many best practices resources reviewed and selected by technical experts*

Some Housekeeping Items

Two Options for Audio (select audio mode):

1. *Listen through your computer.*

- Please select the “mic and speakers” radio button on the right hand audio pane display

2. *Listen by telephone.*

- Please select the “telephone” option in the right-hand display, and a phone number and PIN will display.

3. *Panelists - Please mute your audio device when not presenting*

4. *Technical Difficulties:*

- ***Contact the GoToWebinars Help Desk: 888.259.3826***

Some Housekeeping Items (continued)

- **To ask a question**
 - Select the 'Questions' pane on your screen and type in your question
- **Having trouble viewing the webinar?**
 - PDFs of the presentations can be accessed at <https://cleanenergysolutions.org/training>
- **Share with others or watch it again**
 - A video/audio recording of this Webinar and the slide decks will be made available at: <https://cleanenergysolutions.org/training>
- **Recordings are also available on our YouTube channel**
 - <http://www.youtube.com/user/cleanenergypolicy>

Agenda

1

**Welcome &
Introductory
Remarks**

2

**Overview of the
Clean Energy
Solutions Center**

- **Stephanie Bechler**,
National Renewable
Energy Laboratory

3

Presentations

- **Reid Detchon**, United
Nations Foundation
- **Pascale Giet & Franck
Legardeur**, Rexel Group
- **Jules Kortenhorst**,
Rocky Mountain Institute
- **Patty Fong**, European
Climate Foundation

4

**Question and
Answer
Session**

5

**Attendee
Survey**

Solutions Center Background and Vision

CleanEnergySolutions.org

The Clean Energy Ministerial (CEM) launched the Clean Energy Solutions Center in April 2011. The Solutions Center:

- Is one of 13 CEM Initiatives, which include:
 - Global Superior Energy Performance Partnership
 - Super-Efficient Equipment and Appliance Deployment initiative
 - Global Lighting and Energy Access Partnership
- Helps governments design and adopt policies and programs that support the deployment of clean energy technologies
- Has more than 35 partners, including IRENA, IEA, IPEEC, Sustainable Energy for All, Bloomberg New Energy Finance and Leonardo Energy
- Is co-chaired by the U.S. Department of Energy and the Australian Department of Industry.

Clean Energy Solutions Center

CleanEnergySolutions.org

Goals

- **Serve** as the primary resource for clean energy policy information, assistance and peer learning for governments and government-affiliated practitioners.
- **Share** policy best practices, data, and analysis tools across countries.
- **Deliver** dynamic services that enable expert assistance, learning, and peer-to-peer sharing of experiences.
- **Foster** dialogue on emerging policy issues and innovation across the globe.

Primary

- Government Policy Makers
- Advisors

Secondary

- Private Sector Companies
- Energy Entrepreneurs and Investors
- Non-Governmental Organizations
- Civil Society
- Others Engaged in Clean Energy

Target Audiences

Ask-an-Expert: Our Experts in Action

CleanEnergySolutions.org

Connects policymakers to a global network of more than 30 energy experts for quick-response technical assistance on policies and programs relating to:

- Renewable Energy
- Energy Access
- Energy Efficiency
- Smart Grid
- Transportation
- Utilities

Delivered no-cost assistance for more than 160 requests from over 75 countries.

Please submit your question directly at cleanenergysolutions.org/expert

Reid Detchon, Vice President, Energy and Climate Strategy, UNF

Reid Detchon has led the UN Foundation's Energy and Climate program since 2005. He is also Executive Director of the Energy Future Coalition, a non-partisan domestic policy initiative. He is responsible for the Foundation's engagement with the UN on energy and climate issues. This includes support of the Secretary-General's initiative on Sustainable Energy for All – whose objectives are now reflected in Goal 7 of the new post-2015 Sustainable Development Goals – as a model of public-private engagement with the UN. It also has included communications support for the IPCC's Fifth Assessment Report, as well as the Earth To Paris coalition that helped build a drumbeat of action and awareness for COP 21. Reid previously served as Director of Special Projects in Washington for the Turner Foundation; as a principal at Podesta Associates, a public affairs firm in Washington; as the Principal Deputy Assistant Secretary for Conservation and Renewable Energy at the U.S. Department of Energy from 1989 to 1993; as principal speechwriter for Vice President George H. W. Bush; and as a staff member and legislative director for U.S. Senator John Danforth of Missouri. He is a graduate of Yale University.

Pascale Giet, SVP Communications and Sustainable Development, Rexel Group

Pascale started her career in the Expand Group before joining ComDev in 1990. She joined Vivendi Universal in 1994 as Communications Director for TDR. In 1997, she was promoted within the group to Advertising Director for Cegetel. In 1999, she joined e-TF1 as Communications Director before moving to Europ Assistance Group in 2004 as SVP Communications & Sustainable Development and member of the Group's Executive Committee. In 2010, she joined Rexel as Group SVP Communications and Sustainable Development and member of the Executive Committee. She has created the Rexel Foundation in 2013.

Franck Legardeur, Energy Efficiency Marketing Director, Rexel Group

Franck has two decades of sales and marketing experiences working for different groups starting by Hager Group, General Electric (GE), where he has occupied different positions, always at the international level. He joined Rexel three years ago as Group Energy Efficiency Marketing Director to deploy and support Rexel countries with the implementation of Energy Efficiency initiatives. He is closely collaborating with a community of 25 energy efficiency leaders representing energy efficiency through Rexel Group. He graduated from ESIDEC International Business School from Metz and possesses a solid technical background.

Jules Kortenhorst, CEO, Rocky Mountain Institute

Jules Kortenhorst is the Chief Executive Officer of RMI. He is a recognized leader on global energy issues and climate change. His background spans business, government, entrepreneurial, and nonprofit leadership.

Prior to RMI, Jules was CEO of Topell Energy BV, a company that developed a cutting-edge process for the production of solid biofuel. He also served as the founding CEO of the European Climate Foundation (ECF), the largest philanthropic organization dedicated to policy development and advocacy on climate change in Europe. Jules led a major effort at ECF to develop the roadmap for decarbonized power generation.

Before launching ECF, Jules was the CEO for International Operations of ClientLogic Corporation, a global leader in outsourced customer relationship management (CRM) solutions. Jules also served as a member of the Dutch parliament. Earlier in his career, he worked for eight years for Royal Dutch Shell, including as managing director of Shell Bulgaria. He began his career as an analyst at McKinsey & Co. in Amsterdam.

Patty Fong, Programme Director for Energy Efficiency, European Climate Foundation

Patty Fong is Programme Director of the Energy Efficiency Programme and a member of the ECF leadership team. She was recruited in 2007 to help establish the foundation, and served as founding COO until August 2012. Based in The Hague, Patty oversees development and implementation of the programme strategy, which aims to (1) rule out the least efficient infrastructure, equipment, processes via new standards and codes; (2) scale demand for energy efficient products and services; and (3) build political will and confidence for greater ambition on energy efficiency and savings.

Patty co-founded and serves on the board of the [Buildings Performance Institute Europe](#), a European policy think tank dedicated to energy efficiency in buildings. She also co-founded and serves on the Steering Committee of the EU [Coalition for Energy Savings](#), which unites business, professional, local authorities, and civil society organisations to make energy efficiency and savings the foundation of energy policies in Europe and the driving force behind a more prosperous, sustainable, and competitive Europe. In addition, she serves on the board of the EU [Alliance to Save Energy](#), a consortium of leading multinational companies supporting greater EU political ambition for energy efficiency.

Question and Answer Session
