Sustainable Energy for All Initiative

1.1 billion people worldwide are without access to electricity, and a billion more have only intermittent access. **2.9 billion** people lack access to clean cooking solutions.

In response, UN Secretary-General Ban Ki-moon launched a new initiative in 2011 by the same name (SE4ALL), calling on governments, businesses, and civil society to make commitments to action to accomplish **three objectives** by 2030:

ENSURING
universal access
TO MODERN ENERGY
SERVICES.

DOUBLING THE GLOBAL
RATE OF IMPROVEMENT IN
**energy
efficiency.**

DOUBLING THE SHARE OF
renewable energy
IN THE GLOBAL
ENERGY MIX.

The UN General Assembly Member States have unanimously declared 2014-2024 as the **Decade of Sustainable Energy for All.**

Practitioner Network members have collectively provided over **30 million** people with clean energy products and services in the last year.

Energy Access Practitioner Network

2000+

members

>230 million

individuals reached

170

countries

- focus on market-based mini- & off-grid solutions
- catalyze energy service delivery at country level
- promote adoption of new technologies, innovative financial & business models
- best practices, peer-to-peer learning
- a “network of networks”

SUSTAINABLE
ENERGY FOR ALL

Practitioner Network & Lusophone countries

- IEA estimates decentralized energy solutions will provide electricity access for roughly **60 percent** of the people now without.
- IFC estimates that individuals without reliable access to safe and clean energy spend **\$37 billion annually** on rudimentary forms of lighting.
- Practitioner Network focuses on **market-led approaches** to scaling mini- and off-grid solutions globally. Currently **70 members operating in Mozambique** listed in the membership directory.
- Practitioner Network continues to grow its presence in Lusophone countries, particularly supporting **ALER**'s activities to promote renewable energy solutions in Portuguese-speaking countries and their recently completed renewable energy status report of Mozambique, showcasing the potential in this region.
